

Big science teams up with big business

Supporting the **massive IT requirements** of scientists and **creating a virtual market place** for Science in **Europe**.

ATLAS High Energy Physics Cloud Use

To support the computing capacity needs for the ATLAS experiment

Genomic Assembly in the Cloud

A new service to simplify large scale genome analysis; for a deeper insight into evolution and biodiversity

SuperSites Exploitation Platform

To create an Earth Observation platform, focusing on earthquake and volcano research

The scale and depth of the Helix Nebula platform reaches far beyond what can be provided by any single company. The Helix Nebula public/private partnership brings together supporters as communities of interest. Partners and supporters boast a rich diversity of experience and skills to drive the Helix Nebula vision.

Helix Nebula is seeking wider participation.

Find out how to become a member of the initiative:
